

Did someone say doom's day prep?

As we recently dealt with unprecedented weather in north Texas that included water boil notices for many counties, we wanted to make sure you are aware that we are an authorized distributor for Berkey - an amazing water purification system.

What is a Berkey Water Filtration System?

Berkey filters remove so many toxins from our water including fluoride, chlorine, bacteria, and other pathogens.

We know that many of you are interested in a filter for your own use and we received notice from our supplier that many things are in low supply and/or waitlisted. So, **we are gathering orders so they can be submitted and get in the que this week.** Please check out the website below to view the item descriptions to see what Berkey item(s) may be most beneficial to your **family** - note, for my **family** of 5 we use the 6 Gallon (aka Crown system) and re-fill it every 2-3 days. **Please send us an email with your wish list and we can provide you with pricing as we are able to provide a discount (below MRSP) to our clients.**
